1. We note that reference to seeking the support of the Parish Council for any proposed Development has been struck out. We believe it is essential that the Parish Council be consulted in the process and those views should be taken into consideration alongside any other appropriate tests to be applied. The Parish Council has a unique perspective and local knowledge which can assist in ensuring that sustainable developments capable of integrating positively into the local community can be brought forward. This is particularly important for villages outside of Settlement Boundaries where the scale and impact of any development needs to be proportionate. 2. Item 2, as redrafted, needs further guidance as to what might constitute "an appropriate scale." It is open to subjective interpretation as currently written.
