	implementation.		vehicle priority,					Survey work was		
	This may result in removing the traffic		bus priority, high vehicle					carried out to		
	lights.		occupancy lane					examine the		
	ge.		cooupanty range					situation. A number		
								of proposals were		
								considered however		
								recent air quality		
								measurements have		
								shown that the NO2		
								levels on Station		
								Street are now		
								under 40µg/m3. In		
								view of this it may		
								be had to justify		
								developing a		
								scheme at this time.		
								It is recommended		
								that no further work		
								is carried out on this		
								measure whilst		
								measured NO2		
								levels are beneath		
								the threshold.		

8	Review town centre one-way system to create a better circulation of traffic around the town and, if appropriate, devise a revised layout	Transport Planning and Infrastructure	Other	2018	County Council District Council Town Council	County Council District Council Town Council		Breckland has been working with its partners at Norfolk County Council on its Swaffham Network Improvement Strategy April 2020 Survey work was carried out to examine the situation. Feasibility work concluded that an option to provide a two-way access from the south to the car park appeared possible. It is recommended that a scheme to provide a southern access to the Theatre Street carpark could be considered as part of the town center improvement plans as detailed in point 6. Funding would need to be identified for both detailed design and implementation.	2023	See comments action point 6 above with plan consultation to be completed by end March 2022
9	Review town centre car parking arrangements to minimise vehicular traffic in sensitive areas and, if	Traffic Management	Workplace Parking Levy, Parking Enforcement on highway	2018	County Council District Council Town Council	County Council District Council Town Council	1μg/m3	Breckland has been working with its partners at Norfolk County Council see work carried out in item 8 above.	2023	See comments action point 6 above with plan consultation to be completed by end March 2022

10	appropriate, devise a revised strategy Consider options for new car parks on the edge of the town to keep	Traffic Management	Workplace Parking Levy, Parking Enforcement on	2018	County Council District Council Town Council	County Council District Council	1μg/m3	Breckland Council have discussed the Station rd. HGV parking with the town council, and they are now in the process of updating the car parking orders to remove the HGV parking on that car park. This will require consultation and a formal order which will also allow for further EV charging locations. Breckland has been working with its partners at Norfolk	
	vehicles from entering the town centre		highway			Town Council		County Council on its Swaffham Network Improvement Strategy April 2020 and as part of this work it was not considered that placing new car parks on the edge of town would be beneficial so will not be considered further.	

15	Improve walking and cycling facilities in and around the town	Promoting Travel Alternatives	Bus route improvements Cycle network Public cycle hire scheme	2018	County Council District Council Town Council	County Council District Council Town Council	1μg/m3	This matter is being considered as part of the Future Breckland and Heritage Action Zone (HAZ) Town Centre Masterplan plans consultation process potentially including provision of cycle stands in the town and setting up of safe cycle routes. Item 1 above requires developers to provide evidence within their transport assessments linking	See comments action point 6 above with plan consultation to be completed by end March 2022

16	Review existing	Promoting	Bus route	2018	County Council	County	Swaffham Town	2022	Plans t met with
	travel arrangements to schools and any	Travel Alternatives	improvements Cycle network		District Council Town Council	Council District	council to contact		Swaffham Town

	Plans including the		scheme			Town	maintain their trave		sustainability /
	role of car sharing					Council	plans and		safeguarding in early
							encourage		2022
							implementation of		
							identified actions		
							A fuller update is in		
							hand, but the advice	Э	
							is that transport to		
							the secondary		
							academy is		
							predominantly		
							buses and walking,		
							there aren't many		
							parents who drop o	ff	
							students there. 1.		
							The school does		
							encourage car		
							sharing to the exter	nt	
							it can but doesn't		
							have a policy		
							directed specifically		
							to this. The school's	5	
							main concern where	е	
							cars are concerned		
							is to control the		
							bunching of cars at		
							arrival and		
							departure times on		
							the relatively narrov	v	
							access roads and		
							reducing the		
							number of car		
							journeys is part of		
							this.		
							2. Given the young		
1							age of the children,		

 		1				
						there is no policy to
						encourage cycling
						to school. Walking
						with parents/carers
						is of course
						encouraged, but
						some parents find
						the pathways
						narrow, often with
						overhanging
						bushes, and the
						proximity of fast and
						heavy traffic
						intimidating.
						3. There is however
						a clear focus on the
						air pollution issue as
						the school is very
						close to the A1065.
						A video made by all
						classes in the
						school at the time of
						the COP
						environmental
						summit in
						November included
						a very telling item
						with children
						standing in the
						school grounds
						demonstrating the
						noise and pollution
						effect of the heavy
						traffic passing along
						the A1065 just
				 		behind the hedge.
	PUE	BLIC HEALTH MEAS	SURES	 	 	

22	Investigate Green Space Initiatives	Other	Other	2018/19	District Council Town Council	District Council Town Council	1μg/m3	This matter crosses a number of different organisational controls but is in hand with the officers / councils responsible for green spaces at County/ District and town levels.	2022/23	See comments action point 6 above with plan consultation to be completed by end March 2022
		Other recent Initiatives								

17	Taxi Licensing conditions	Promoting Low Emission Transport	Taxi Licensing conditions	2021	District Council Taxi Drivers	No	Encourage/make it easier for other local businesses and householders to switch to electric. Within the next 12 months Breckland Council will be reviewing our Hackney Carriage and Private Hire Vehicle Licensing Specifications to encourage lower emissions and more environmentally friendly vehicles.	2021	Breckland Council has licensed the first fully electric private hire vehicle in the district in 2021, paving the way for greener transport options in the region.
18	Cross council collaboration and investment	Vehicle Fleet Efficiency	Other - Fleet efficiency	2021	Breckland Council and the Borough Council of King's Lynn and West Norfolk. Serco.	No	Reduce carbon footprint. The contract largely uses a new fleet of vehicles with some electric vehicles. The new fuel-efficient trucks are quieter, produce less CO2 per mile and use 18% less fuel	Started April 2021	The contract will also see a brand-new fleet of bin collection trucks and other vehicles rolled out, which will operate across all three council areas. These will include reduced emissions and hybrid vehicles.

19	Sustainable Swaffham programme / EV Charging Installation	Promoting Low Emission Plant	Emission control equipment for small and medium sized stationary combustion sources / replacement of combustion sources /Procuring alternative Refueling infrastructure to promote Low Emission Vehicles, EV recharging, Gas fuel recharging	2021	Breckland Council and Breckland Council's Market Towns Initiative	Breckland Council's Market Towns Initiative	No		Ongoing Breckland Council is launching a new initiative which will make Swaffham one of Norfolk's most environmentally friendly towns. The Sustainable Swaffham programme will see the rollout of a number of 'green' schemes being consulted in late 2021 / early 2022 Breckland will be installing four additional charging points in the Theatre St car park in Swaffham which are being funded by the Market Town Initiative. There are no plans for Future Breckland work to put any more in Swaffham.	2021/22	These initial green schemes will be followed up with further activity in the future, with the next focus expected to be on sustainable transport and green connectivity. However, the Swaffham district councillors are inviting all residents and businesses to help shape the future programmes and approaches by getting in touch directly.
