

# Polling District, Polling Place & Polling Station Review 2023 – Responses

## Polling Districts and Polling Places Review 2023

Within my ward of Upper Wensum I am happy with the polling places as they exist. Most are in village halls and the remainder similar establishments. There is a small muttering each time from the very small communities who have to travel to the next village but I believe that this is generally acceptable The longest distance I believe is Twyford to Foxley.

It would be good, as that village expands to consider Bintree for a station but now there is no public space in the village. The redundant church is used sometimes, but has no real facilities, the pub has re-opened but may not be suitable. Again, these villagers have to travel to Foxley which is difficult for those without cars as the bus service is dire.

If Bintree had a polling place it would also serve Twyford.

All the villages have remote settlements around them which means many residents are outside normal acceptable walking distance. But as rural dwellers most have at least access to a car.

Best regards,

The Community Building is a relatively new structure and is warm and well lit. It has a new concrete path leading to it from the car park and work will soon be getting underway to light up the full length of the path. It has very good disability access.
